

REMARKS

Applicants appreciate and respectfully acknowledge the telephone interview that took place between Examiner Phyowai Lin and the undersigned today, June 9, 2008. In summary, the Examiner indicated that in addition to the other currently pending claims, claim 14 would be allowable if amended to include some of the further limitations of the last two segments of claim 16, without the limitations of previously cancelled claim 15.

Accordingly, while not acceding to the propriety of requiring these further claim amendments, Applicants have rewritten Claims 14 to accept subject matter deemed allowable by the Examiner to expedite prosecution of this application to allowance. The amendments to the claims correspond to language contained in the claims as originally filed. These amendments were not made to limit the scope of the present invention nor were they made to distinguish the present invention from the art of record. Thus, no new matter has been added by the amendments and the application as now presented is believed to be in allowable condition.
